

Dr. Robert Kulik

Robert Kulik, MD, Clinical Andrologist, Ob/Gyn. He has been performing vasectomy procedures since 2013. Currently, he works in ZdrOva Praktyka Lekarska in Warsaw and in Katowice, Poland. Dr. Robert Kulik believes that overpopulation, the low status of women, lack of access to minimally invasive methods of birth control, and low social awareness are one of the most significant problems of our globe. In addition to clinical and educational work, Dr. Kulik is involved both materially and actively in international charity missions WVD (World Vasectomy day) and NSVI (No Scalpel Vasectomy International). Dr. Kulik is a member of many scientific societies and organizations, among others, related to the problems of reproduction, fertility, and male and female contraception.
