## Learning Objectives

At the end the presentations, the participants will be able to:

### **Potpourri for Better Vasectomy**

1. Describe why and how to perform a cord block
2. List interventions to prevent and to manage hematomas.
3. Identify care needed to preserve and reuse thermal cautery tips.

### **Getting the Vasectomy Done Against All Odds**

1. Identify situations when alternative instruments and/or techniques can “save “ a vasectomy.
2. Choose the appropriate instruments and/or techniques for completing a difficult vasectomy.
3. Describe the use of alternative instruments and/or techniques for completing a difficult vasectomy.

### **Future of Male Contraception**

1. Cite and summarize results from Male Contraceptive Initiative’s global market research study regarding male focused contraception options.
2. List three different male focused contraceptive options currently in development.
3. Articulate and describe the vas occlusive technology being developed by Next Life Sciences.
